## NOTICE TO MARINERS

[Notice 02 of 2025]

### UNDERWATER DANGER ROCK AND SHALLOW DEPTH OFF HAMBANTOTA HARBOUR

1. Mariners are hereby informed that underwater rock and shallow depth have been discovered by Sri Lanka Navy Hydrographic Service during a recent hydrographic survey conducted off Hambantota harbour. The affected charts need to be corrected as follows:

Sr No.	Description	Latitude	Longitude	Symbol / Depth	Remarks
01	Underwater Rock (Covers / Uncovers)	06° 05'.710 N	081° 03'.420 E		Insert
03	Depth	06° 05'.773 N	081° 03'.417 E	9.7	Delete
04	Depth	06° 05'.833 N	081° 03'.434 E	1.2	Insert

2. Forwarded for onward charting actions please.

Charts Affected: 3264, 3265

STS : 813

Source: Sri Lanka Navy Hydrographic Service

**Note:** Insert 2m depth contour to cover the both above inserted depth and underwater rock appropriately as comparatively shallow depth available between two locations. Positions indicated above are referred to WGS84 datum.
